Safe Delivery Guaranteed by Express

Shipments are fully insured and safe delivery is guaranteed by express. If bulbs are frozen, or the shipment is damaged, please notify us and your express agent at once so we may file claim. Mail shipments are insured against loss, except freezing. For that reason, in the winter, we prefer shipping bulbs by express. We use great care to see that only good stock is sent out, but can assume no responsibility for germination or crops. Should any shipment not open to your satisfaction, please notify us at once. We want only satisfied customers. Feel free to write us. Your success is ours too.

BLUE RIBBON OFFER

For each Blue Ribbon you win with an Ellis Origination during the next summer, we'll let you have \$10.00 worth of bulbs free, of Ellis Originations, of your selection from the following fine new varieties: Golden Chimes, Coral Strand, Flying Squadron, Yellow Emperor, and Powhatan. You must win the ribbons either at the National A. G. S. Show, a State Show or State Fair, or an A. G. S. Regional Show, or any show of equal size and rank with any of these. Also send us the original or a duplicate Blue Ribbon and the Secretary's certificate.

We also hereby authorize any Show of the above rank to make the above offer for us.

EXTRAS: We shall be pleased to include extras of our selection from the newer varieties in return for the names of growers of Glads. Also don't be surprised if we include some anyway for your trial.

WE HAVE NO THRIPS

The State Inspectors examined our gardens very carefully several times this past summer for the thrips, commonly known as Gladiolus Thrips, but could find none. Nor can we find any trace of these thrips in our gardens. Nor can we learn of any having been found in Oregon. Again at the State Fair this season we won first for best Gladiolus Exhibit, which is further evidence that we have no thrips and that our bulbs are healthy and vigorous. The Dept. of Agriculture, Ottawa, Ont., Canada, has issued a bulletin on thrip control, which anyone wishing data on thrip control would do well to read.
